Rev. Alexander Kent Defines the Kind Which Brings Blessings.

Sharp Criticism of Railroad Wreckers, Gratu Cornerers, Whisky Distillers and Sweatshop Owners.

It's almost disinterested advice when we suggest that you come now and look over our Carpet Stock before the new Fall Goods come in with their necessarily higher prices.

If you see a pattern you like you need not have it laid now, for we will keep it for you until later.

There's common sense in carpet buying now, and much less strain on the bank account than later—besides styles do not change so radically as you might—carpets are intended to last many years, and quiet patterns are always safe to buy.

## MORE TRACES OF CRIME.

Another Find of Detectives in the Holmes Case.

Chicago, Aug. 11.—While investigating the Holmes case in company with Chicago officers yesterday Detective Geyer, of Philadelphia, found a hat pin, a few charred small bones and some jet beads that had evidently been worn on a woman's hat.

The find was brought to police headquarters and examined. The articles were included in the pan of an old stove. The bones were separate and imperfect, so that it could not be determined whether they were those of a human being, or of some animal. The police do not attach much importance to the find, but are using every effort to get further information.

From the fact that Pat Quinlan was with them when they came to police headquarters it was said that Quinlan had directed the search and has been doing everything in his power to aid the police. One of the officers said the hat pin and jet beads had been identified by Quinlan as belonging to Mrs. Julia Connor, and when asked to verify or deny this, Inspector Fitzpatrick refused, saying their investigation was not yet ended.

## LIKE DAYS OF INQUISITION

Citizens of Colombia Hung Up by Their Heels.

Authorities Attempt to Extort Confessions of a Political Plot—Fifteen or Twenty Men Tortured.

(Special Correspondence United Press.)  
Barranquilla, Colombia, July 15.—As a result of a searching investigation our correspondent makes the following extraordinary report. A few weeks ago a phase of the old-time "Inquisition" was instituted in this city, in free Colombia.

A number of government officials alleged that they had information of a new conspiracy against the clerical or government party, the Caro government. The history of this latest Spanish-American outrage, stripped of minor details, is as follows:

A native woman, in whom a man had confided, informed the authorities that she knew of localities in which arms were concealed, that the hiding places were in and near the city. Her information led to the instant arrest of a number of people.

A search was instituted by the local authorities and rifles were found in a number of localities. The ends of the board were hoisted by ropes, until the whole weight of the body of the victim rested on the sharp edges of the central aperture, the toes just touching the ground. While suspended repeated floggings were given.

Altogether ten or twelve persons underwent more or less torture, when some of the most prominent citizens here sent a joint memorial to the minister of the interior, asking if the tortures practiced were authorized by the Caro or national government. The memorial led to the ending of this new reign of terror.

## IDENTIFIED A "FLOATER."

George Bailey, a Colored Hostler, Was Accidentally Drowned.

The body of the colored man who was found floating in the Potomac at the foot of Seventh street has been identified as that of George Bailey, a hostler, who had been employed by Mr. Story, the brickmaker, at First and O streets southwest.

On Wednesday last Bailey told his employer he was going down the river. He has not been seen since. No one saw the unfortunate man when he fell overboard, but the police believe the drowning was accidental.

Bailey was last seen alive on Wednesday evening, and it is supposed he had been in the water since Wednesday night or Thursday morning. As the body was rapidly decomposing at the morgue, and no one appeared to claim it, the dead wagon was sent for and the remains interred in potter's field. Deceased was about twenty-five years old and roughly dressed.

Sunday at Beautiful River View.  
The usual large crowd journeyed to River View yesterday, many anticipating witnessing a trip into Cloudland by Miss Raymond, but owing to railroad disconnections the sailing party failed to reach the city in time. A large sign informed the people of the fact, but it did not, nor did Mr. S. either, succeed in diverting the tide of the three thousand excursionists that disported themselves over the beautiful place and enjoyed the day in such a manner that well earned the title of "the city's pleasure grounds."

## WORK OF THE BUG BUREAU

Secretary Morton Briefly Discusses the Slaughter of Insects.

Exposure of Fake Remedies Is an Important Feature—Mosquitoes at Last Find an Enemy.

The compilation by Prof. Pantan, of the Ontario Agricultural College, of the figures concerning the annual loss from the work of destructive insects. These figures were discussed by Secretary Morton, of the Agricultural Department, in his usual breezy fashion.

"These figures," he said, "are mostly drawn from American sources, and mainly from publications of the United States Department of Agriculture, and they serve a good purpose in directing attention to the necessity for active work on the part of economic entomologists, but, in one way, they are somewhat misleading."

"The losses to individual farmers, and occasionally to the agricultural population of a more or less restricted portion of the country, and frequently very great, summed up in dollars and cents, yet the actual money loss to the agriculturists of the country at large is by no means expressed by these same figures, for the simple reason that the loss of a portion of the crop means an increased price for the remainder. We may express the loss from insects in terms of bushels of produce, but in turning it into money value this factor of increased price must not be overlooked."

"The expenditure of \$3 an acre, following the latest methods ascertained by the entomologists, will keep the orchard healthy. The work of the division of entomology during the past few months on the cotton boll weevil in southern Texas will result next year in the saving of many thousands of dollars to cotton planters in that section, if the recommendations are followed."

"These instances are new and are simply examples of saving work which is going on from year to year. It is probable that in the aggregate they result in the saving of even greater sums than do the much rarer, but more striking instances, such as the introduction by the department of the Australian lady bird into California, by which the entire cotton industry of that State was saved from destruction."

"Not a small item in the total value to be accorded to the entomological work of the department is the exposure of 'fake' remedies. Only the present season the Entomologist has shown that a tree-inoculating company in the New England States, which claimed to be able to inoculate trees against the ravages of leaf-eating insects, had been leading its claims upon the misguided application of a method which was proved to be totally inefficacious fifty years ago."

"Incidentally, and although not pertaining strictly to agricultural interests, I might mention that the application of a remedy against mosquitoes, first, practically used by our Mr. Howard and recommended in his publication during the past year or two, has resulted, in two instances, at least, in rendering habitable large sections near Long Island Sound, and in so greatly increasing the value of real estate that the owners have made large sums of money as a direct result."

## PHILADELPHIA'S "LEXOW."

Senate Committee Accepts Offer of Citizens to Pay Expenses.

(By Associated Press.)  
Philadelphia, Pa., Aug. 11.—The senate committee appointed to inquire into, or "Lexow" the municipal affairs of this city yesterday afternoon and formally voted to accept the Citizens' Municipal Association's offer of \$20,000, with which to defray the expenses of the investigation.

At the close of the recent session of the legislature the house defeated the bill making an appropriation for the committee. The senate committee rendered its report, of this city, thereupon placed a check for \$20,000 at the disposal of the chairman of the committee, Senator W. H. Andrews, of Crawford county. All of the members of the committee attended yesterday's meeting and their action was unanimous.

They also selected Elias W. Pettit as their attorney to conduct the investigation. Mr. Pettit is president of the Union League and one of the best known lawyers in Philadelphia. He is counsel for several large corporations, including the Northern Railroad, and has been instrumental in the present in Tacoma on an important legal errand.

Chairman Andrews said in an interview: "The investigation will be thorough, and before we get through we will show the people of Philadelphia that we mean business. The committee will not be content with a mere report, but will see that the city is put on a sound financial basis."

"Voluntary witnesses, of whom there are a large number, will be heard first, and afterward we will force the attendance of unwilling witnesses."

Appeal Against Condemnation Award.  
James B. McCaffrey Saturday, through his attorney, Edwin Forrest, noted an appeal to the Supreme Court of the District from the award made by the commissioners in the case of the Fair, Railroad and condemnation case. It is understood that the company will be allowed to enter the property of Mr. McCaffrey pending appeal, by giving bond in double the sum of the present valuation, and assessment of damages made in the award.

## Take Their Annual Bath.

Spring Lake, N. J., Aug. 11.—One of the principal features of this season is the annual Farmers' Wash-day at Wreck Pond, Spring Lake. No less than 10,000 farmers gathered here from all parts of the country yesterday morning. The farmers came with their wives, their sweethearts, their children, and their grandchildren, in all kinds of wagons. While the 10,000 farmers took their wash, 5,000 sightseers looked on.

## GOOD TEMPLARS' MEETING.

Four Lodges Install Officers—Exalted Board Work Approved.

On Monday evening, August 6, D. P. Holloway Lodge, No. 18, I. O. G. T., held its first regular session of the present quarter. About forty persons were present, including visitors from Columbia, Minniewaska and Morning Star lodges.

Among the individuals present were the G. C. T., A. N. Canfield; the G. C. A. T., M. J. Smith; the D. C. G. E. H. Jones; the D. C. J. T. Smith. The regular business of the lodge was speedily conducted, and then the grand chief templar installed the following officers for the term ending October 31, 1895, being aided by the G. M., J. C. Suter, and R. Carrie Smith; C. T., A. B. Cole; V. T., S. Lillie; Biddlecombe; Sec. F. J. Cole; Asst. Sec., Mrs. F. J. Cole; P. S., Mrs. Douglas; Treas., S. L. R. King; Chap., S. Nellie Houser; Marshal, Clarence Hockley; Dep. Marshal, S. Marion Harper; Guard, George Bowersox; Sentinel, Charles Cox; P. C. T., S. Mary Houser.

The reports rendered by the retiring officers showed the lodge to be in a fairly prosperous condition, although owing to the weather, the records showed a rather poor attendance.

The good of the order, in charge of the Grand Council, consisted of vocal and instrumental music, remarks, etc. The G. C. T., Brother Canfield, speaking of the "dry Sunday" crusade now being waged in New York city, said that the brewers estimated that they were losing \$200,000 every Sunday that the saloons were closed. He denied the statement, maintaining that the brewers never had this money to lose. On the other hand, he said, that some \$250,000 was in the pockets of New York's workingmen on Monday morning instead of going to fill the coffers of the saloon-keepers.

The grand councilor stated that from his incipency the cause of total abstinence from all intoxicating drinks had flourished and grown—had passed from the age of scorn and ridicule until now we have the respect of all law-abiding and thinking people. He declared the cause to be active in the cause of temperance, and especially active in the advancement of the Order of Good Templars.

Remarks were made by C. F. W. Bergman, of District Lodge No. 2, while Mr. Smith favored the attendance with a vocal solo. The Minniewaska Lodge rendered a most effective choice selection, at the conclusion of which an invitation was extended the lodge to be present at the union meeting to be held August 20 in the Minniewaska lodgeroom.

The oldest lodge of Good Templars in the District of Columbia, Minniewaska No. 1, held its regular session in its pleasant lodgeroom at Fifth and G streets northwest last Tuesday evening, August 6. Much interest was manifested by those present, including, besides their own members, visitors from Perseverance, Morning Star, D. P. Holloway and other lodges. The I. O. G. T. Brother Holloway presided, and the officers for the ensuing quarter, as follows: C. T., W. B. England; V. T., S. R. A. Dinsmore; secretary, Brother Tudor; F. S., John G. Smith; treasurer, Howard R. Hatfield; chaplain, S. Annie Morgan; marshal, S. Nellie Pollock; guard, S. Rose Farrington; sentry, S. Helen Smith; assistant secretary, S. Daisy Houser; P. C. T., Henry F. Smith.

The retiring officers rendered their reports for the quarter just ended, showing the lodge to be on an excellent footing, the weather seeming not to dampen the enthusiasm of the members.

A very pleasing good of the order was then rendered under the direction of the regular committee. It consisted of vocal and instrumental music, remarks, etc., participated in by both their own members and the visitors. Notice was given of the union meeting to be held on August 20.

The lodge is not at present meeting in any hall, as the membership has fallen off quite perceptibly, many of their members being out of the city. The committee on hall asked for further time. This was granted them. The committee on entertainment reported in favor of an entertainment at the residence of Sister Mowatt, No. 1829 Fourteenth street northwest, on next Monday evening. This report was favorably received and adopted. Their next regular meeting will be held on Wednesday evening, August 14, at No. 2007 Ninth street northwest.

The officers for the ensuing term are as follows: C. T., R. H. Williamson; V. T. Stier, Mary Johnson, secretary; Sister F. E. Miller; F. S. George Woods; treasurer, William Tucker; marshal, Frank Nussbaum; deputy marshal, S. Elsie Drusman.

made their final report and turned the proceeds over to the lodge.

The following motion was then unanimously carried: "To notify the members of our approval in their ruling relative to having signs placed upon the houses of applicants for saloon license and to express the hope that the ruling would not be rescinded."

A motion was then carried to instruct the secretary to communicate with the building inspector, calling his attention to the unprotected condition of Society Temple in case of fire. The unprotected condition of this building has been repeatedly called to the attention of the owner, but he has paid no attention to it. The district chief templar urged the lodge to be present at the union meeting on August 20.

The reports of the officers for the quarter just ended were then presented. They showed the lodge to be in a healthy condition, both numerically and financially. The district chief templar, Brother Bergman, then installed the following officers for the ensuing year:

Chief templar, John T. Hough; vice templar, Sister Etta Jackson; secretary, E. H. Jones; assistant secretary, L. T. Jones; financial secretary, Sister M. M. Evans; treasurer, William M.
